

EVERYDAY WATERPROOF PROTECTION

Keep casts, bandages,
and dressings dry during bathing,
showering, and swimming.

WATERPROOF

VitaPlus Cast & Bandage Protectors keep a patient's cast, bandage or wound dressing dry through a shower or bath. The flexible stretch opening forms a secure seal around the limb, with no tape or fasteners required, so it slips on in seconds and remains soft and comfortable for repeated daily use.

FLEXIBLE STRETCH

WATERTIGHT SEAL

DURABLE & RE-USABLE

SUITABLE FOR VARIED SIZES

EASY TO USE

CAST & BANDAGE PROTECTORS

Reusable and available in multiple sizes, VitaPlus Cast Protectors keep casts, dressings and bandages dry throughout a full shower. Easy for your carer to slip on in just seconds, they require no tape and no cut-up bin bags.

NO FASTENERS SIMPLE USE

Pick this when speed matters. No tape, clips or fasteners needed – simply slip it straight over the cast or dressing, and it's sealed. The flexible opening forms a secure seal around the arm or leg.

FLEXIBLE STRETCH FOR VARIED SIZES

Pick this when one product needs to fit a range of residents. The stretch opening forms its own seal around different limb sizes, so there's no need to stock a separate size for every person. Reusable and durable for repeated use.

COMFI-FIT SOFT & DURABLE

Pick this for residents who use it frequently or have sensitive skin. Soft and comfortable against the limb, it's built to withstand repeated showers. The flexible diaphragm forms a secure, comfortable seal to keep water out.

medinoxTM
your health our passion

Medinox supplies globally trusted health brands, including mx Health, VitaPlus, thermX and more. Renowned for their superior quality and diverse selection of products, these brands have earned the trust of families and healthcare professionals worldwide.
